

savings.

15. Even taking this conservative approach, staff estimates consumer benefits averaging approximately \$1.5 billion a year between 2016 and 2018. This does not include any estimate of savings to carriers as a result of reduced ICC disputes, or the value of increased certainty in ICC receipts and obligations. These omissions are especially significant given that the \$1.5 billion benefits estimate reflects a comparison of ICC revenues under reform to a trended no-reform baseline: ICC payment declines under the no-reform baseline would likely be accompanied by significant and growing billing disputes, which impose real costs on carriers, and ultimately consumers. Reform reduces total ICC payments without imposing these costs. Given this, and given the other ways in which the \$1.5 billion estimate is conservative, staff concluded that actual benefits to consumers are likely to fall somewhere between this amount and the \$2.6 billion upper bound described above, derived based on untrended 2010 revenues. For example, were one to simply take the midpoint between these values, it would be approximately \$2.1 billion per year.

Consumer Payments: Access Recovery Charges

16. Weighed against these consumer benefits, staff estimated that, at their peak, the annual cost to consumers of ARC increases will likely be less than \$500 million per year, including ARCs paid by businesses, which we expect will be passed through, in whole or in part, to customers, and ARCs paid by consumers directly. The total ARCs that carriers will be permitted to charge under the Order will reach a peak of approximately \$800 million across all end users in 2017 (i.e., including consumers, single-line businesses, and multi-line businesses), and then decline gradually over time with decreases in carriers' Eligible Recovery.²⁵ The ARC increases that consumers and businesses actually see, however, are likely to be 25 to 50 percent less than allowed ARC increases, on average.²⁶ Applying this 25 to 50 percent discount to peak allowable ARC implies that, at their peak year, all end users will likely pay a total of approximately \$500 million, and will pay less in preceding and subsequent years. Staff assumed that businesses will pass 100 percent of ARC increases onto their customers,²⁷ and therefore we estimate total consumer costs will reach approximately \$500 million in the peak year.

17. Comparing this amount to the estimated consumer benefits of ICC reform implies that consumer benefits are likely to outweigh ARC payments by more than 3 to 1, based on a conservative estimate of benefits.

²⁵ See *supra* para. 852.

²⁶ See, e.g., Reply Comments of AT&T Inc. on the Missoula Plan for Inter-carrier Compensation Reform, CC Docket No. 01-92, filed Feb. 1, 2007, Exhibit 1 at n. 11 (noting that carriers likely cannot charge full permitted recovery charges on all customers); see also <http://www.phoenix-center.org/perspectives/Perspective11-06Final.pdf> (estimating carriers realize as little as 40 percent recovery of lost ICC revenues from permitted fixed charge increases).

²⁷ This differs from staff's assumption about multiline businesses' pass through of savings, see *supra* note 21, where staff assumed only 75 percent pass through. Using a higher estimate for cost pass through than for savings pass through makes the estimate of the ratio of consumer payments to consumer benefits conservative.

Ladies and Gentlemen:

We hereby establish, at the request and for the account of [Winning Bidder], in your favor, as required under the [Report and Order, adopted on October 27, 2011] issued by the Federal Communications Commission ("FCC") in the matter of [Connect America Fund, WC Docket 10-90] (the "Order"), our Irrevocable Standby Letter of Credit No. _____, in the amount of [State amount of Letter of Credit in words and figures]. NOTE: The amount of the Letter of Credit shall increase/additional letter(s) of credit shall be issued as additional funds are disbursed pursuant to the terms of the Order], expiring at the close of banking business at our office described in the following paragraph, on [the date which is ___ years from the date of issuance/ or the date which is one year from the date of issuance, provided the Issuing Bank includes an evergreen clause that provides for automatic renewal unless the Issuing Bank gives notice of non-renewal to USAC by a nationally recognized overnight delivery service, with a copy to the FCC, at least sixty days but not more than ninety days prior to the expiry thereof], or such earlier date as the Letter of Credit is terminated by [USAC] (the "Expiration Date"). Capitalized terms used herein but not defined herein shall have the meanings accorded such terms in the Order.

Funds under this Letter of Credit are available to you against your draft in the form attached hereto as Annex A, drawn on our office described below, and referring thereon to the number of this Letter of Credit, accompanied by your written and completed certificate signed by you substantially in the form of Annex B attached hereto. Such draft and certificates shall be dated the date of presentation or an earlier date, which presentation shall be made at our office located at [BANK ADDRESS] and shall

be effected either by personal delivery or delivery by a nationally recognized overnight delivery service. We hereby commit and agree to accept such presentation at such office, and if such presentation of documents appears on its face to comply with the terms and conditions of this Letter of Credit, on or prior to the Expiration Date, we will honor the same not later than the first banking day after presentation thereof in accordance with your payment instructions. Payment under this Letter of Credit shall be made by [check/wire transfer of Federal Reserve Bank of New York funds] to the payee and for the account you designate, in accordance with the instructions set forth in a draft presented in connection with a draw under this Letter of Credit.

Partial drawings are not permitted under this Letter of Credit. This Letter of Credit is not transferable or assignable in whole or in part.

This Letter of Credit shall be canceled and terminated upon receipt by us of the [USAC's] certificate purportedly signed by two authorized representatives of [USAC] in the form attached as Annex C.

This Letter of Credit sets forth in full the undertaking of the Issuer, and such undertaking shall not in any way be modified, amended, amplified or limited by reference to any document, instrument or agreement referred to herein, except only the certificates and the drafts referred to herein and the ISP (as defined below); and any such reference shall not be deemed to incorporate herein by reference any document, instrument or agreement except for such certificates and such drafts and the ISP.

This Letter of Credit shall be subject to, governed by, and construed in accordance with, the International Standby Practices 1998, International Chamber of Commerce Publication No. 590 (the "ISP"), which is incorporated into the text of this Letter of Credit by this reference, and, to the extent not inconsistent therewith, the laws of the State of New York, including the Uniform Commercial Code as in effect in the State of New York. Communications with respect to this Letter of Credit shall be addressed to us at our address set forth below, specifically referring to the number of this Letter of Credit.

ANNEX BDraw Certificate

The undersigned hereby certifies to [Name of Bank] (the "Bank"), with reference to (a) Irrevocable Standby Letter of Credit No. [Number] (the "Letter of Credit") issued by the Bank in favor of the Universal Service Administrative Company ("USAC") and (b) [paragraph ____] of the [Report and Order, adopted on October 27, 2011] issued by the Federal Communications Commission in the matter of [Connect America Fund, WC Docket 10-90] (the "Order"), pursuant to which [Name of Winning Bidder] (the "LC Provider") has provided the Letter of Credit (all capitalized terms used herein but not defined herein having the meaning stated in the Order), that:

[The [Name of Winning Bidder] has [describe the event that triggers the draw], and is evidenced by a letter signed by the Chief of the [Wireless Telecommunications Bureau/Wireline Competition Bureau] or [his/her] designee, dated __, 20__, a true copy of which is attached hereto.] Accordingly, a draw of the entire amount of the Letter of Credit No. _____ is authorized.]

OR

[USAC certifies that given notice of non-renewal of Letter of Credit No. _____ and failure of the account party to obtain a satisfactory replacement thereof, pursuant to the Order, USAC is entitled to receive payment of \$ _____ representing the entire amount of Letter of Credit No. _____.]

IN WITNESS WHEREOF, the undersigned has executed this certificate as of [specify time of day] on the ____ day of _____, 201__.

ANNEX CCertificate Regarding Termination of Letter of Credit

The undersigned hereby certifies to [Name of Bank] (the "Bank"), with reference to (a) Irrevocable Standby Letter of Credit No. [Number] (the "Letter of Credit") issued by the Bank in favor of the Universal Service Administrative Company ("USAC"), and (b) paragraph [] of the [Report and Order adopted on October 27, 2011] issued by the Federal Communications Commission ("FCC") in the matter of [Connect America Fund, WC Docket 10-90] (the "Order"), (all capitalized terms used herein but not defined herein having the meaning stated or described in the Order), that:

(1) [include one of the following clauses, as applicable]

(a) The Order has been fulfilled in accordance with the provisions thereof; or

(b) [LC Provider/Winning Bidder] has provided a replacement letter of credit satisfactory to the FCC.

(2) By reason of the event or circumstance described in paragraph (1) of this certificate and effective upon the receipt by the Bank of this certificate (countersigned as set forth below), the Letter of Credit is terminated.

IN WITNESS WHEREOF, the undersigned has executed this certificate as of the ____ day of _____, 201_.

APPENDIX O

Final Regulatory Flexibility Analysis

1. As required by the Regulatory Flexibility Act of 1980 (RFA),¹ as amended, Initial Regulatory Flexibility Analyses (IRFAs) were incorporated in the *Notice of Proposed Rule Making and Further Notice of Proposed Rulemaking (USF/ICC Transformation NPRM)*, in the *Notice of Inquiry and Notice of Proposed Rulemaking (USF Reform NOI/NPRM)*, and in the *Notice of Proposed Rulemaking (Mobility Fund NPRM)* for this proceeding.² The Commission sought written public comment on the proposals in the *USF/ICC Transformation NPRM*, including comment on the IRFA. The Commission received comments on the *USF/ICC Transformation NPRM* IRFA.³ The comments received are discussed below. The Commission did not receive comments on the *USF Reform NOI/NPRM* IRFA or the *Mobility Fund NPRM* IRFA. This present Final Regulatory Flexibility Analysis (FRFA) conforms to the RFA.⁴

A. Need for, and Objectives of, the Order

2. The Order adopts fiscally responsible, accountable, incentive-based policies to transition outdated universal service and intercarrier compensation (ICC) systems to the Connect America Fund (CAF), ensuring fairness for consumers and addressing the challenges of today and tomorrow, instead of yesterday. We adopt measured but firm glide paths to provide industry with certainty and sufficient time to adapt to a changed landscape, and establish a regulatory framework which will ultimately distribute all universal service funding in the most efficient and technologically neutral manner possible.

3. For decades, the Commission and the states have administered a complex system of explicit and implicit subsidies to support voice connectivity to the highest cost, most rural, and insular communities in the nation. Networks that provide only voice service, however, are no longer adequate for the country's communication needs. Broadband and mobility have become crucial to our nation's economic development, global competitiveness, and civic life. Businesses need broadband and mobile communications to attract customers and employees, job-seekers need them to find jobs and training, and children need them to get a world-class education. Broadband and mobility also help lower the costs and improve the quality of health care, and enable people with disabilities and Americans of all income levels

¹ 5 U.S.C. § 603. The RFA, 5 U.S.C. §§ 601-612 has been amended by the Contract With America Advancement Act of 1996, Public Law No. 104-121, 110 Stat. 847 (1996) (CWAAA). Title II of the CWAAA is the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA).

Dortch, Secretary, FCC, WC Docket Nos. 10-90, et al., at 3 (filed April 6, 2011); Molalla Telephone Company *USF/ICC Transformation NPRM* at 3; Letter from John Hemphill, Vice President, Pine Telephone System, Inc., to Marlene H. Dortch, Secretary, FCC, WC Docket Nos. 10-90, et al., at 3 (filed March 30, 2011); Letter from Dave Osborn, Valley Telephone Cooperative, Inc. to Marlene H. Dortch, Secretary, FCC, WC Docket Nos. 10-90, et al., at 3 (filed August 29, 2011).

⁴ See 5 U.S.C. § 604.

to participate more fully in society. Broadband-enabled jobs are critical to our nation's economic recovery and long-term economic health, particularly in small towns, rural and insular areas, and Tribal lands.

4. Too many Americans today, however, do not have access to modern networks that support mobility and broadband. Millions of Americans live in areas where there is no access to any broadband network. And millions of Americans live, work, or travel in areas without mobile broadband. There are unserved areas in every state of the nation and its territories, and in many of these areas there is little reason to believe that access to broadband service will be provided to these areas in the near future with current policies.⁵

5. Consistent with the challenge of ensuring that all Americans are offered basic voice service and access to networks that support high-speed Internet access where they live, work and travel, extending and accelerating broadband and advanced mobile wireless deployment have been two of the Commission's top priorities over the past few years. The Order focuses on those remote and expensive-to-serve communities where the immediate prospect for stand-alone private sector action is limited.

6. Our existing voice-centric universal service system is built on decades-old assumptions that fail to reflect today's networks, the evolving nature of communications services, or the current competitive landscape. As a result, the current system is not equipped to address the universal service challenges raised by broadband, mobility, and the transition to Internet Protocol (IP) networks.⁶

7. With respect to voice services, consumers are increasingly obtaining such services over broadband networks as well as over traditional circuit switched telephone networks. In the Order, the Commission amends its rules to specify that the functionalities of eligible voice telephony services. The amended definition shifts to a technologically neutral approach, allowing companies to provision voice service over any platform, including the PSTN and IP networks.

8. With respect to broadband, the component of the Universal Service Fund (USF) that supports telecommunications service in high-cost areas has grown from \$2.6 billion in 2001 to a projected \$4.5 billion in 2011, but recipients lack any accountability for advancing broadband-capable infrastructure that delivers voice service. We also lack sufficient mechanisms to ensure all Commission funded broadband investments are prudent and efficient, including the means to target investment to areas that lack a private business case to build broadband. In addition, the "rural-rural" divide must also be addressed— some parts of rural America are connected to state-of-the-art broadband, while other parts of rural America have no broadband access, because the existing program fails to direct money to all parts of rural America where it is needed. Similarly, the Fund supports some mobile providers, but only based on cost characteristics and locations of wireline providers. As a result, the universal service program provides more than \$1 billion in annual support to wireless carriers, yet there remain many areas of the country where people live, work, and travel that lack mobile voice coverage, and still larger geographic areas that lack mobile broadband coverage.⁷

9. For the first time, the Commission establishes a defined budget for the high-cost component of the universal service fund.⁸ Establishing a CAF budget ensures that individual consumers will not pay more in contributions due to the reforms we adopt today. We therefore establish an annual funding target, set at the same level as our current estimate for the size of the high-cost program for FY
